

Hydra Fury

***Removes Silver Deposits from Racks,
Rollers & Tanks***

***Unique Formulation Designed to Remove
Silver Deposits in Minutes.***

DUAL PURPOSE

EASY TO USE

Simply wipe **Hydra Fury** over Racks, Rollers and Tank sides to remove silver build-up or soak components in tank for total clean.

RACKS & ROLLERS

Remove Ranks from Tank. Rinse off processing chemicals and drain to chemical waste tank. Either pour or wipe **Hydra Fury** over Rollers, turning Rollers to ensure total saturation. Leave until contamination is dissolved. Once components are clean, rinse with clean water and drain to chemical waste tank.

CLEANING IN SITU

Drain and thoroughly rinse chemical tank and Racks to be treated into chemical waste tank. Fill Tank with **Hydra Fury** at 1:1 solution with water. Turn Racks to ensure total saturation. Leave until silver deposits dissolve. **DO NOT LEAVE OVERNIGHT.** Drain and rinse tank and racks to chemical waste until solution has been removed.

N.B.

- **Hydra Fury** is totally biodegradable and **without** silver contamination can be safely put down the drain.
- Always wear protective clothing, goggles and gloves when using **Hydra Fury**.
- Although **Hydra Fury** does not have a strong odour **ALWAYS** use in well ventilated areas as chemical reaction with deposits when **Hydra Fury** is removing contamination can cause strong odours.

STOPS

Scratched film or marks on prints.

STOPS

Slipping and jamming of rollers.

STOPS

Tram lines or flakes on finished work.
